

REMARKS

This divisional application is being file in response to the Restriction Requirement of June 11, 2002. In the parent application, Applicant prosecuted Claims 70-130 and 135-173 (composition claims) and canceled Claims 131-134 (method claims) as directed to a non-elected invention. Claims 26-29 are similar to Claims 131-134 in the parent application. In addition, Applicant has added Claims 30 to 129, which are method claims that incorporate the skin peel compositions of Claims 70-130 and 135-173 in the parent application.

In view of the present amendments to Applicant's claims and corresponding remarks contained herein, reconsideration and allowance of the application by the Examiner is requested. Applicant submits that the independent claims and the claims depending therefrom are patentable over the art cited by the Examiner and are in condition for allowance, which action is hereby respectfully requested. The art applied by the Examiner has been reviewed by Applicant and is believed not to anticipate or render obvious any claims in the application.

Respectfully submitted,

By:
